**KENTUCKY REPUBLICAN PLATFORM.**  
We are opposed to the free and unlimited coinage of silver, believing that it would invade the country in financial ruin. We believe in a sound currency and in the use of gold and silver for money, provided always that in one it will be made precisely as valuable as a dollar in the other.  
We favor a tariff as regulated as to protect the interests of our citizens upon articles that may be successfully manufactured or produced in this country and which tend to engage the laborer and a home market to the producer, and in connection with it we favor the re-establishment of the doctrine of reciprocity. We believe that such a system will relieve every Government expense, gradually liquidate all indebtedness, reduce public confidence and relieve in the near the future the entire country from the burden of the currency.  
We favor the American policy which will protect the American and American interests in any part of the world in all business and will support us with struggling Republics rather than ignominious monarchies.

**COL. WALTER BYANS,** the Republican Congressman-elect from the Louisville District, said of the Democratic ticket and its chances of success in November:

"It is hard to tell just what will be the effect of the gold platform and the silver candidate. You may catch the voters' e-mails and a groan will be heard, and again the Democrats are liable to lose with both the gold and silver men, but one thing is clear to my mind as a result of the Convention, and matters leading up to it, and that is they have made this District safely Republican."

Prof. Mark W. Harrington, Chief of the Weather Bureau, Receives Notice That the President Requests His Resignation.

There Has Been Friction Between Prof. Harrington and Secretary Vinton, His Chief—Maj. Duwoody of the Signal Corps, May Resign Harrington.  
WASHINGTON, July 3.—Prof. Mark W. Harrington, chief of the weather bureau, has been removed by the president. There has been friction between Prof. Harrington, who is a hold over official of the department, and Secretary Morton. His official chief, for some time. On the 19th of last month, according to the statement of Prof. Harrington, now in the first time made public, the president requested his resignation "because of personal reasons" as Prof. Harrington puts it. He declined to resign and the president directed his removal, to take effect with the beginning of the new year, July 1.

Prof. Harrington was appointed by Secy Rusik in 1900 from Michigan because of his long acquaintance with meteorological matters. He was a member of the faculty of Ann Arbor university, and had the influence of the senators from that state. There was an investigation into alleged irregularities in the weather bureau administration a year or more ago and considerable talk at that time that Prof. Harrington's resignation would be acceptable, but it died away. Harrington himself claims that he has been made a martyr to political necessities. He said this evening: "Among the public interests which I have had steadily in view were the preservation of the scientific corps and the protection of the bureau for the spottlemen. When a scientific bureau descends in the four-year office holding plan it at once loses prestige and ceases to be a desirable post for competent men."  
Maj. Duwoody, of the signal bureau, is most prominently mentioned as Prof. Harrington's successor, but as the weather bureau has been transferred to the control of the agricultural department, the assignment of an army officer for this duty would require a special order from the secretary of war and approved by the president.

LYNCHED.

A Murderer Who Was to Have Been Hanged Friday, But Resisted Pending the Action of the Court of Appeals.

From the Jail at Denton, Md., by a mob and hanged to a tree in the jail yard. The people around the gallows to the point of desperation.

DENTON, Md., July 3.—Marshall E. Price, who was recently convicted of the murder of Sallie E. Dean, the 14-year-old school girl, in February, and sentenced to be hanged on Friday next, was taken from the jail here at 11 o'clock Tuesday night and hanged to a tree in the jail yard.

Price begged pitifully of the jail officers that they protect him when the crowd of strange men battered down the door of the prison, but the jailors, seeing that they were outnumbered, fifty to one, could do nothing and offered little resistance.

The people granted to Price Tuesday pending the action of the court of appeals (which will not meet until Wednesday) urged the action of the mob Tuesday night was hardly a surprise. All day groups had been gathered discussing the murder and Price's efforts to implicate School Teacher Corkran in the crime.

It is not known whether any of the lynchers were recognized, but no attempt was made to conceal their identity.

COUNTERFEIT BILLS.

A New Ten Dollar Free Certificate on the Market.

WASHINGTON, July 3.—The treasury officials call attention to a new counterfeit \$10 silver certificate, described below.

Series 1913, check letter A, W. S. Rosecrans, register, E. H. Nebecker, treasurer, portrait of Gen. Hancock, small scalloped corners.

The note is apparently printed from a wood cut plate and is much more heavy than the genuine. Straight lines are used instead of curved lines in the lathe work. The imprint of the bureau of engraving and printing is entirely omitted from the panel over the treasury number, lower left corner face of note.

The back of the note is very poor, both in color and workmanship. No attempt has been made to imitate the distinctive paper on which the genuine notes are printed.

The ordinarily careful holder of money will not be deceived by this counterfeit.

HIGH-GRADE IRON AT ASHLAND. Bessemer Pigiron Will Be Produced Instead of Foundry Iron.

The seventy-five ton blast furnace of Ashland Coal and Iron Railway Company has changed from the making of foundry iron, and will for the remainder of the summer produce Bessemer pigiron.

At the Norton Iron Works the company is also experimenting with a high silicon iron, such as is now made only in Europe.

If the results are satisfactory, additional impetus will be given the steadily favorable conditions at all the local iron works.

After sickness of any kind, complete and speedy recovery is assured by the use of Ayer's Sarsaparilla. It cures all diseases which may be lurking in the system, and restores tone and activity to every organ of the body. It is the best summer medicine.

The sun's glare is most trying on that sensitive organ—the eye. Out of doors the bright light causes intense pain, and many people go about with half-closed eyes. Prompt relief is had with glasses, correctly fitted as to kind and color. And from our long experience, we know just how to fit them.

SPECIFIC FOR SCROFULA.

"Since childhood, I have been afflicted with scrofulous boils and sores, which caused me terrible suffering. Physicians were unable to help me, and I only grew worse under their care. At length, I began to take

AYER'S Sarsaparilla, and very soon grew better. After using half a dozen bottles I was completely cured, so that I have not had a boil or pimple on any part of my body for the last twelve years. I can cordially recommend Ayer's Sarsaparilla as the very best blood-purifier in existence."—G. T. REINHART, Myersville, Texas.
